Introduction

The Fall Databook reflects data extracted from the Integrated Student Information System (CU-SIS) at different points in time.

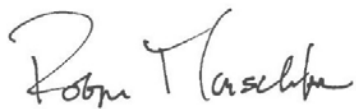

- The Fall [Census Snapshot](#) is taken within a few days of the last day students can drop courses or withdraw for a 100% refund and has usually been within the second week of September.
- The Fall [End-of-Term Snapshot](#) data are frozen several weeks after the end of the semester, usually in early January, which is expected to be enough time for final grades to have been reported to Student Records.
- Data extracted from the [Central Information Warehouse](#) are specific to the day of the extraction and will differ from census or end-of-term snapshots.

Read the notes for each table to determine the point of time of the extraction. The Fall Databook will be updated in September and January, with the last update noted in the header and in the data labels shown within the tables.

Data items are included based on the frequency of requests from campus constituents. *The Fall Databook is not comprehensive nor does it reflect all the data on hand nor all the reporting handled by Institutional Research or other offices.* Contact Institutional Research directly if you have additional data requests or questions.

Student Academic Information

Career Level

A student career may be categorized as Undergraduate, Graduate, or Non-Degree Graduate. The non-degree graduate career houses students who are taking graduate-level courses but are not seeking an approved certificate, master's, or doctoral degree. Figures represent main campus enrollment.

Academic Plans (Majors and Minors)

The count of enrolled students by plan includes students who may be registered in multiple plans per semester. Each plan is associated with a plan code and a plan type as well as a career, department, and college. The total enrollment among academic plans is greater than the unique enrollment of students per semester. Please visit our website at <https://ir.uccs.edu/studentdata/databook> or download to Excel at https://ir.uccs.edu/sites/g/files/kjihxj1231/files/inline-files/Website_%20All%20Plans%20by%20Department%20%28Fall%20Terms%29_1.xlsx.

Class Level

Class level represents the class level at which students started the term. *Please see Admit Type for a count of new, incoming students.*

Race & Ethnicity (Options)

Students may identify in more than one race and/or ethnicity. The table below shows the total number of **students who have identified as belonging in a group regardless of how they have been categorized for federal reporting** (as above). The % column depicts the percentage of the student body who have identified as such. For example, note the difference in the number of American Indian or Alaska Native students (534) versus the number categorized for federal reporting (38). This is because many American Indian or Alaska Native students identify with an additional ethnicity and are often categorized into the Two Plus category.

Military Affiliation

Various sources of data overlap; therefore, students with a military affiliation are counted in each category that is applicable to them: (a) any military-related tuition assistance maintained by Student Financial Services, (b) veteran and veteran dependent service indicators maintained by the Office of Veteran and Military Student Affairs, (c) residency exceptions maintained by the Office of the Registrar, (d) matches to DOD or VA databases, and including enrollment in certain military science courses, and (e) self-reported military status drawn from student applications and/or the student portal.

First Generation Status

First-Generation Status is based on application and financial aid documents and is defined here as an undergraduate student whose parent(s) have not completed a 4-year baccalaureate degree. The substantial decline beginning in 2018 is attributed to changes on the undergraduate application which generated missing and/or irrelevant data and the inability to use it to categorize students as first-generation.

Pell Grants

The number of students receiving a Pell Grant is often a proxy measure for low-income students. In order to receive a Pell Grant, undergraduate students must apply for financial aid. Data are updated several months after the end of the term when the financial aid year ends.

Student Financials

Estimated Income Quintile (Undergrads)

Students are placed into an estimated income quintile based on the adjusted gross income reported in their FAFSA. The range of the household income quintiles are drawn from the United States Census Bureau. For more details, please refer to the income quintile report at <https://www.uccs.edu/ir/studentdata/financial-aid>. The fluctuation between the lowest and the unknown categories beginning in 2019 are due to improved AGI data that allows for the differentiation of zero versus null values.

Credit Hour Matrix

This matrix shows the credit hours taught by a college to students who may or may not be in a program managed by the same college. Refer to the term and the students' programs in the left side of the table. The columns under "Course Credit Hours Taught" represent the college teaching the course. The total includes Concurrent and Cross-College hours not shown as columns. Example interpretation: CLAS students generated 46% of the credit hours while CLAS delivered 58% of the hours, thus CLAS delivered more "service" hours to students who are not majoring in the college.
