ADJUNCT & OTHER TEMP	510	0%	13	1%	13.1
STUDENT FACULTY	1,263	1%	22	1%	23.7

Credit Hours and Sections are assigned to the employee teaching a course who has the highest teaching rank, with Professor first and Student Faculty last.

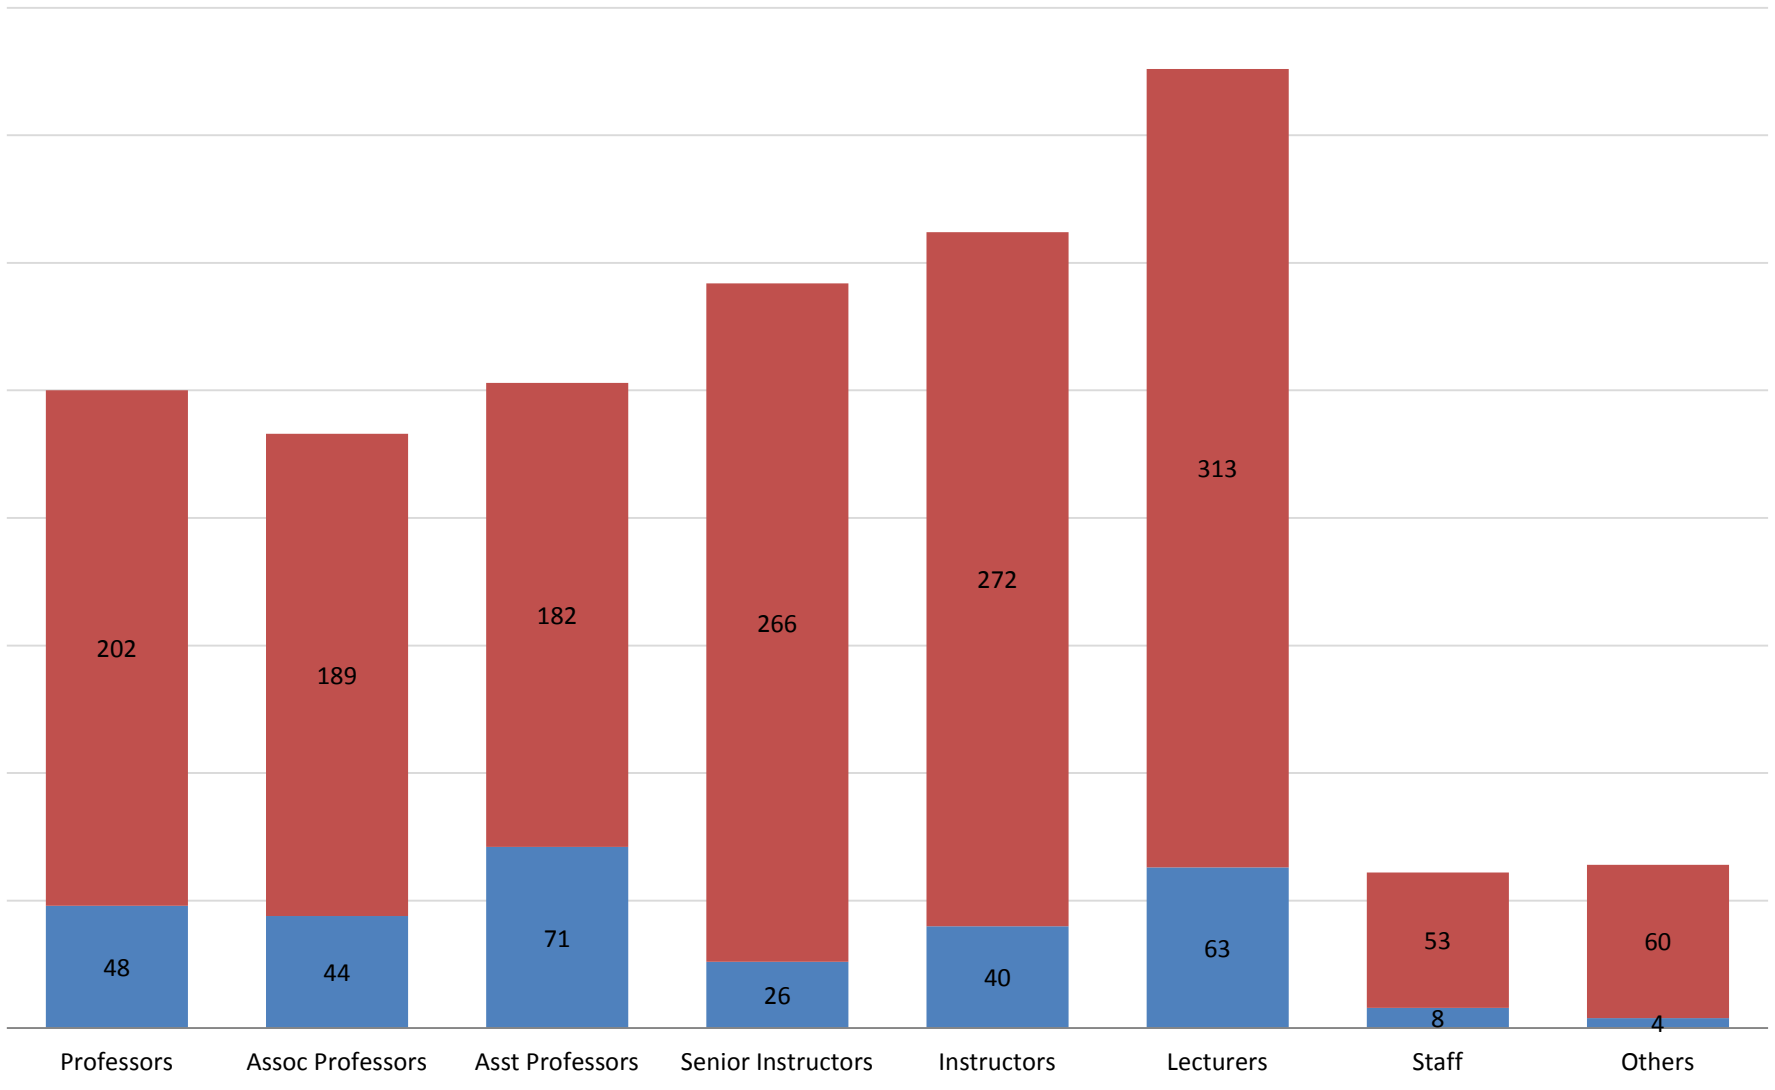

Main Campus Credit Hours Taught by Job Group* Fall 2011 Census

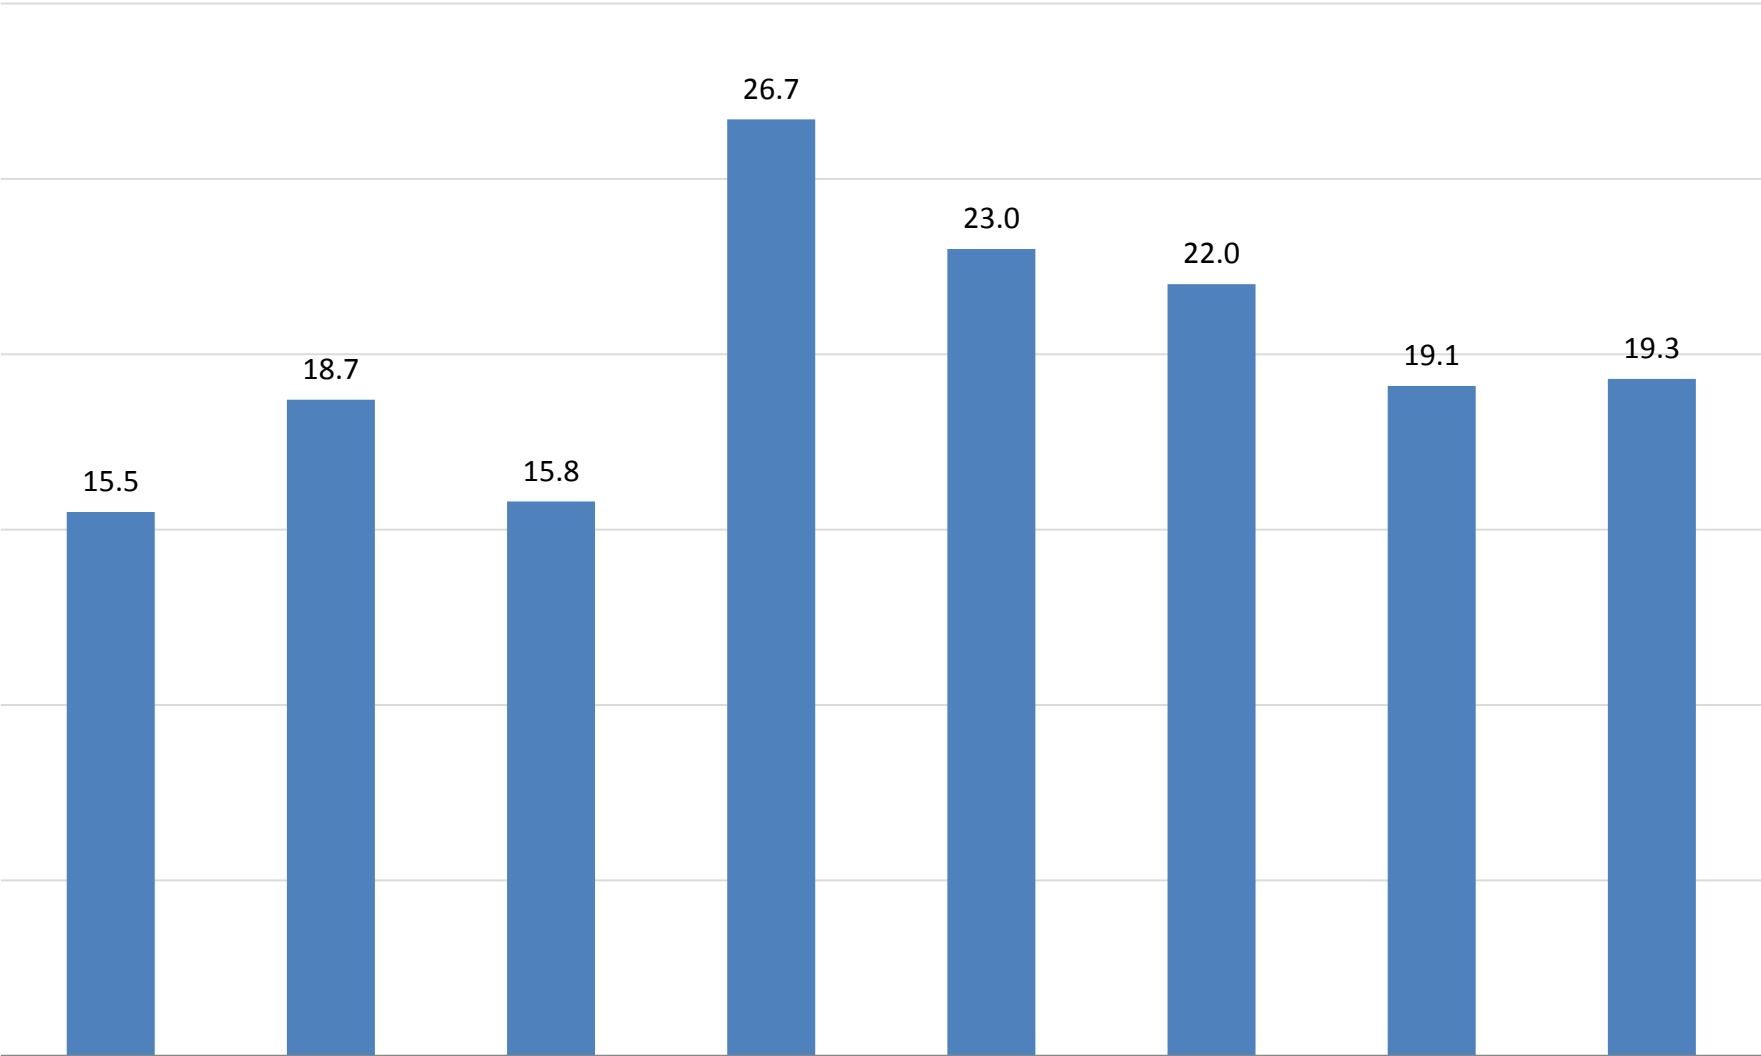

*If courses are taught by multiple individuals or by individuals with multiple appointments, the Job Group is assigned to the "highest" Job Group among them.

Course Sections Taught by Job Group Fall 2011 Census

PROCEDURES

- a. Extract all data 2117classenroll
- b. Extract instructors from MEETING PATTERN with External ID but no meeting patterns (2117Instructors)
- c. Extract employees from HR
Identify employees' primary position (use IPEDS)
- d. Add following variables to 2117Instructors
 - team taught = if duplicate rows above or below
 - team taught adjusted = after correcting for missing faculty
 - percentage not needed but could use for load with careful filters
 - HRID2 = corresponding format as HRINFO
 - IPEDS Primary = Primary position per individual
 - Job Code
 - Job Group
 - SORT BY JOB GROUP > JOB CODE > ALPHA BY NAME
- d. Add following variables to CLASSENROLL from 2117Instructors, after above sort
 - section count
 - team taught
 - highest instructor (name)
 - highest job group
 - highest rank
- e. Identify any courses in CLASSENROLL with missing faculty
 - Look them up in Psoft one by one
 - Take active appointment for fall semester, most recent, or note as NO HR RECORD

THUS, we have the highest ranking individual listed as the instructor for each course.

With "highest" being (a) Professor as highest to Other as lowest, and (b) IPEDS Primary

Therefore, team taught courses go to the individual with the highest rank.

Combined sections are counted as multiple sections as they appear in the database.
